

SECURITY

Chatfield Learners Intervention Center is a residential center highly secured to provide maximum security to the children. Children are free to enjoy the environment around without the fear of sneaking or wandering off the compound. The security entrance is manned 24/7. Dedicated matron and teachers work collaboratively to provide the best for the children to ensure a comfortable and home-like learning environment.

LEARNING PROGRAMS

Chat Field Learners Intervention Center provides a unique learning structure that develops the mind, body and love for self- learning. Our focus is to have the children Learn For Life (L f L). Emphasis is laid on basic academic skills (numeracy, reading, and writing, comprehension, and language skills), life skills, Art skills, Hand work skills, and Computer skills. The accomplishments of these are geared towards bringing up teens that are remarkable and independent.

Learning for Life

A Stimulating learning experience for children in a caring environment while enhancing life skills development.

Teens START(Social Tools And Rules for Teens) is a learning program that enhances the social development of teens and young adults with autism through life-skills education, mentoring, experiential learning, Reading comprehension and cultural exposure that will promote self-sufficiency and independence.

The program STARTs with cognitive development, which later applies to gross and fine motor function, that translates to the will of the body to act and work. i.e., Mind (head), Body and the Will. In a structured way that creates predictability, and sequence of functional activities, the program is well designed and suited for children and teens with **Autism and those with specific learning difficulties.**

With experienced teachers, Chat Field Learners Intervention Center provides a stimulating and learning experience to children, in a caring environment, while enhancing life skill development.

CLASSES

Our classes are small to ensure intervention success. Children are taught on one -on-one basis, following an Individual Educational Program (IEP). The IEP is specially developed by teachers of Special Needs Education, in consultation with other professionals, to address the child's needs.

MEALS AND DIET.

Children are provided with a well-balanced diet, with keen interest paid to those on the Autism spectrum. We provide an Autism diet to children diagnosed with Autism. Boarders have their lunch and 4.o'clock snack, and dinner, all included in the fees.

Day scholars are provided with 10 o'clock break and lunch. Children are not allowed to carry packed meals.

RECREATION AND OUTINGS

To ensure that children develop their social and interpersonal skills, our students are allowed out of school weekend outings fortnightly, throughout the term. This is a very important skill that forms part of the life skill training. This applies to boarding students only. Activities such as dining out of school, swimming, bicycle riding, shopping enhances a child social skill and self -responsibility. Our specially trained team of teachers provides such learning opportunities unconditionally.

LEARNING SUPPORT SERVICES

These are services designed to support and supplement learning and intervention process. They include services such as Speech Therapy, Occupational Services, and Physio-therapy, as may be advised by Psycho-Educational professionals or medical practitioners, based on the child's needs. Such services are not included in the fees and may be provided at an extra cost on need base.

Leaners exhibiting high cognitive skills will be prepared for Edexcel Grade 6, (International Primary Education) Grade 9, International Lower Secondary Curriculum) and grade 11(IGCSE) examinations with Pearson International. with Access Arrangements .
